Our new series 'Digital Wisdom' for classes 1 to 5 is designed on the recommendations made by the NCERT that a child must get the knowledge of computer fundamentals at school level. The first five books have been designed for primary school students. The books have been prepared with the aim of introducing the fundamentals of computers to the reader. Apart from this, attention has been paid to include chapters that are required by the students studying different courses. The structured and modular design is followed to facilitate the instructor in the teaching of the course and the students in the reading of the book. The books include both the theoretical concepts and the practicals for computer lab.

SALIENT FEATURES

Our series is designed, carved and constructed on the recommendations made by the Educational Boards of India. The content of the books has been designed to cover all the norms introduced by the CBSE & NCERT.

Our series is teacher and student friendly in which enough teaching material is given with examples so that the teacher may teach the chapter to the students with ease.

Exercise Bank

The aforementioned series is equipped with enough exercises to help teachers. Various exercises are designed to make the students understand the chapter by applying minimum efforts. Our Exercise Bank will facilitate the teaching and studying experience pleasurable for both the teachers and students.

Help Book

One of the most beneficial features of our series is the inclusion of Help Book for the books of each class. The Help Book contains the precise and accurate answers of the questions given in the textbooks. It will save teacher's time and energy as this book is well equipped with readymade answers.

Multimedia Interactive CD

Keeping abreast with the national and international standards, our series has reached the most advanced level as we have used Multimedia to make it more beneficial for the students. Each book in the series is equipped with an interactive CD. The CD contains the whole chapter along with the MCQ exercises.
